

Beyond dreams

VAAR

FOR THE PAST TEN YEARS, THE VAAR YACHT FURNITURE COMPANY IN MONACO HAS PUSHED BACK THE LIMITS IMPOSED BY MATERIALS TO PROPOSE EXCLUSIVE ITEMS MAKING SUPERLATIVE YACHTS EVEN MORE CAPTIVATING.

SALOMÉ LOUNGE CHAIR

TITANIUM FOLDING COLOMBRE

Born of an encounter in the late 1980's between well-seasoned yacht captain Carl Tissi and experienced interior designer Fulvia Ciapparelli, the Vaar brand embodies a perfect blend of elegance and practicality. Specializing in luxury furniture for prestige yachts, it meets the most stringent requirements of yachtsmen, shipyards, and architectural studios. Far removed from serial production, Vaar gives precedence to bespoke design, taking the utmost care to meet each client's needs and desires. Often working in direct collaboration with yacht owners, Vaar provides its expertise and know-how to conjure up indoor and outdoor living spaces both refined and unique. Consoles, various types of seating, tables, lighting, sunbeds... Each piece is a singular work of art, imagined by the team of designers led by Creative Director Fulvia Ciapparelli, then made by hand in Italy to comply with rigorous quality standards by unequalled craftsmen demonstrating total mastery of techniques both traditional and innovative. This expertise guarantees impeccable finishes and maximum durability, essential within the marine context of top-notch yachting. In addition to woods, steel, and marine leather selected from around the world, the brand has made titanium its signature material. Light, resistant, and environmentally friendly, titanium adds a touch of modernity and exclusiveness to the brand's designs. While artisanal quality lies at the heart of Vaar strategy, it is equally committed to respect for the planet. Finally, in terms of style, Vaar draws on its roots in the Modernist movement of the 1920's and 1930's, characterized by sleek lines and a focus on harmony. This influence is accompanied by the oriental spirit dear to Fulvia Ciapparelli, giving rise to exclusive creations distinctive for their refinement and lightness.
